Tutorial 3

Please find your seat based on your assigned group number
(you could find it under canvas->people->project groups)

Outline

- Ice-breaking(~10min)
- Team work contract(~20min)
- Brainstorming project ideas(~20min)

Ice-breaking(~10min)

- Please introduce yourself to your teammates, tell each other your major, your year level, some fun facts of you and all the other stuff you want to share!

Team work contract(~20min)

- Key Components
  - Expectation: the expected/best case (good time management, good team communication, good team collaboration, etc.)
  - Meetings: setting up meeting schedule (meeting time, frequency, attendance, location/channel, etc.)
  - Communication: setting up communication plan (channel, response time, etc.)
  - Review/Quality Check: PR/submission review
  - Task Assignments/Deadlines
  - Breach of Contract: penalty of violence

In your team of 3~4:

- Spend 5 minutes in silence, and during this time, each team member comes up with 3 things to contribute to the team work contract

- Paste all items from all group members into a collaborative document (e.g., Google docs, Microsoft word using UBC's Microsoft teams)

- Organize items that are similar

- Discuss each group of items, and discuss which you agree to keep, and which you do not

- That is your teamwork contract!

Brainstorming project ideas(~20min)
